

AHEME BMP Batch 37

On the 18 to 21 June 2013, UT held a program called Astra Heavy Equipment, Mining, and Energy Basic Management Program (AHEME BMP) which is routinely held by United Tractors Learning Center (UTLC). In this program, the participants were given knowledge *Effective Team Contributor, Personal Effectiveness, Professionalism at Work, Problem Solving & Trouble Shooting, AHEME Management System, and Effective Communication.*

The execution of AHEME BMP has entered batch 37th which consists of 28 participants. This program was executed at two places, since the program consist of indoor and outdoor activities. The indoor activities was done at Discovery room, of UTLC building which the activities consist of explanation

about materials related to Human Capital, Mining, Marketing, and Executive Sharing by Mr. Bugie Laksana, the President Director of PT Bina Pertiwi, one of UT subsidiary.

For the outdoor activities, the participants were brought to Waduk Jatiluhur area. The participants are not only taught about the theory but also practicing how to interact, cooperate, and surviving with all circumstances that occur in there. Through this event, the participants who works for UT Group was expected to have not only the intellectual ability, but also a good emotional stability.
